

JF Kjolbro Wholesale:

- the vital link for the Faroese Fishing & Offshore Industries

Handle With Care

PEOPLE AND THE ENVIRONMENT ARE EARTH'S MOST PRECIOUS RESOURCES. WHETHER WE'RE EXPLORING FOR OIL AND GAS IN ALGERIA, EAST TEXAS OR THE NORTH SLOPE OF ALASKA, WE USE THE MOST CAREFUL OPERATING PRACTICES AND THE BEST TECHNOLOGY AVAILABLE TO SAFEGUARD OUR EMPLOYEES, OUR NEIGHBORS AND THE COMMUNITY. AS OPERATOR OF LICENSE 007 AND AS PARTNER IN LICENSE 006, ANADARKO FAROES COMPANY IS PLEASED TO BE INVOLVED IN THE DEVELOPMENT OF THE FAROES OIL INDUSTRY.

Houston - based Anadarko Petroleum Corporation is the world's largest independent exploration and production company.

JF Kjolbro Wholesale was established in 1961, moved to new, purpose-built premises in 1986 and is now a modern, vibrant company. The Director, Jákup Mikkelsen, is also a Member of Parliament for the Norðoyggjar area.

Kjolbro Wholesale currently distributes a wide variety of products to the fishing, industrial and retail sectors within the Faroe Islands and is one of the few companies in the north listed in FOIR.

To meet the future needs of the oil industry, Kjolbro Wholesale has been expanding its product base and will specialise in the sale and supply of valves, chains and radar equipment. Jákup Mikkelsen has been very proactive in forming business links with suppliers in France, Spain, Germany, Belgium, Britain and Norway.

For 41 years, Kjolbro Wholesale has been supplying the fishing industry with both food and non-food products. As from 1st January 2003, it will take over the agency for the Norwegian company, Mustad. Mustad has been an award winning hook manufacturer for 125 years and is well known for the high quality of its products.

Poul Andrias Mikladal, Marketing Manager at Kjolbro Wholesale, will be in charge of selling Mustad Autoline systems, long lines and hooks and also of carrying out installation, repairs and maintenance, as well as supplying spare parts.

He is pleased that Kjolbro Wholesale, after many years of selling the renowned Mustad hooks, will now be able to provide a comprehensive service to long-line fishermen, all under one roof. He is also looking forward to being able to announce details, early

in the New Year, of a seminar to be held in the Faroe Islands by Jan Lybekk, Marketing Director from the Mustad Headquarters in Gjøvik. This seminar will be accompanied by a "road show" during which the Coastal Autoline system will be demonstrated.

Poul Andrias Mikladal is no stranger to the fishing industry as he is a mechanical engineer with a specialism in refrigeration, who has worked in ship building & repairs, fishing processing, ice production and fish farming, not to mention making some fishing trips on long liners in his younger days.

As highlighted at the Offshore Faroes conference, there are many products needed by both the Faroese Fishing and the Offshore industries and Kjolbro Wholesale is at the centre when it comes to satisfying this demand. There will be an opportunity to meet Jákup Mikkelsen and Poul Andrias Mikladal at the conference to find out first hand why they are so excited about the future and why they believe Kjolbro Wholesale is the vital link in the supply chain for both industries.

Útgerð til basan av oljudálking

Altíð tilreiðar at hjálpa tá dálking er

Spill Kit - Mobil BL-Kit 30

Mesti absorberingskapasitetur: 38 litur
Effektivur absorberingskapasitetur: 30 litur

Pakki við absorbentum til smærri dálkingar undir flutningi og í ídnaði. Pakkin kann lættliga goymast aftanfryri setrið í flutningsakfari. Ein fyri brúkaran løtt, praktisk og effektiv loysn ímóti smáum oljulekum.
