

Áhugaverd ráðstevna í Aberdeen í október:

Oljan millum Føroyar og Hetland á skránni

Fyrsta miðvísa ráðstevnan gongdina í oljukanningum vestan fyri Hetland verður í Aberdeen í næstum

Áhugin fyri økinum millum Føroyar og Hetland sum eitt stórt og týðandi framtíðar oljuøki økist fyri hvønn dag. Hetta prógvar ikki minst tað nógva bretska virksemi stutt frá

føroyska markinum.

Sohvørt sum økið verður betri og betri kannað og fleiri virðismiklir upplýsingar verða fingnir til vega um økið verður eisini meira

og meira tosað um økið millum oljufólk. Hóast stóra oljuráðstevnan í Stavanger herfyri í stóran mun snúði seg um royndirnar at fáa meiri olju til haldar úr Norðsjónum, so

varð ein ikki so lítul partur av ráðstevnuni halgaður júst økinum millum Føroyar og Hetland.

Í næstum verður ein ráðstevna hildin í Aberdeen, sum burturav umrøður útviklingin í økinum vestan fyri Hetland og tað merkir jú eisini og ikki minst, hvat hendir stutt frá føroyska markinum, og tískil hevur ein slík ráðstevna eisini stóran áhuga fyri føroyingar.

Tað er "The Offshore Management Centre á Robert Gordon universitetinum, sum saman við kenda ráðgevarafyrirkuni Smith Rea Energy Analysts, sum skipar fyri ráðstevnuni, ið verður mánadagin 10. október.

Á ráðstevnuni verða ikki færri enn 9 fyrilestrar um allan útviklingin vestan fyri Hetland. Millum fyrilestrarhaldararnar er eisini Árni Olafson, formaður í føroysku oljuráðleggingarnevndini og leiðari í nevndini, sum samráðist við bretar.

Fyrilestrarir fevna um alt, sum hevur við olju og undirgrund at gera í hesum økinum.

jan

Árni Olafson, formaður í oljuráðleggingarnevndini skal halda fyrilestur á stóru oljuráðstevnuni í Aberdeen í október. Mynd jan
