

Skulu ikki á posthúsið eftir pengum

- Als eingin ætlan er um at broyta skipanina, so arbeiðsleys skulu á posthúsið eftir stuðlinum, sigur Torgerð Nielsen á Arbeiðsloysisskipanini

Sosialurin visti í gjár at siga, at Arbeiðsætlanin hevur arbeiðið við einum uppskot um at broyta mannagongdina, soleiðis at arbeiðsleys skulu á posthúsið fyrri at fáa pengarnar.

- Hatt er ein misskiljing. Skipanin við útgjaldi heldur fram sum áður, soleiðis at arbeiðsleys fáa peningin fluttan á konto sína í peningastovnum, sigur Torgerð Nielsen.

Tað nýggja er, at arbeiðsleys nú fara at fáa nøkur skjöl, ið kanska líkjast girokortum, sum tey skulu lata inn 14.

hvønn dag. Hesi skjöl skulu tey lata inn antin á posthúsinum ella á lokalu arbeiðsávisingini.

- Eg síggi einki manninkandi í tí. Endamálið er at tryggja, at útgjaldið verður so rætt sum gjørligt. Við hesum skuldu vit eisini sloppið undan, at nakað verður útgjaldið til fólk, sum ikki eru her um slíkt hendir, sigur Torgerð Nielsen.

Hon væntar, at tá henda skipanin fer at virka, verða skeivleikarnir færri, og avgreiðslurnar skjótari.

Vit fáa nú økta umboðan í Norðurlanda Ráðnum

Samstarvssáttmálin millum Norðurlond skal broytast

Ríkisumboðsmaðurin hevur spurt landsstýrið um tað kann taka undir við at nakkunngerðir í samband við norðurlanda samstarvið, verða settar í gildi í Føroyum.

Og tað heldur landsstýrið vera skilagott, og hevur lagt uppskot fyrri tingið hesum viðvíkjandi.

Í viðmerkingunum sigur landsstýrið millum annað, at norðurlond eru samd um at broyta samstarvssáttmálan fyrri at endurnýggja og menna samstarvið, nú norðurlond vaksa um samstarvið við Evropa.

Landsstýrið sigur, at endamálið við broytingini er, at lata Føroyar og Áland fáa økta umboðan í Norðurlandaráðnum og Norrøna Ráðharraráðnum og at veita Grønlandi somu umboðan.

Ætlaða broytingin er eisini í bygnaðinum í sekretariatnum hjá Norðurlandaráðnum og Ráðharraráðnum, og somuleiðis ber broytingin í sær, at samstarvið verður viðkað til eisini at fevna um umhvørvisvernd.

Broytingin, sum landsstýrið mælir til, snýr seg

eisini um at ráðharraráð verður sett á stovn, og at hetta fær myndugleika á øllum samstarvsøkjum.
