Bus from Hvannasund
to Klaksvík est. 17.20
– Arrival Klaksvík est.
17.45.

Each island
has its own
distinctive
character

Mikladalur

WELCOME TO THE NORTHERN ISLANDS

THE NORTHERN ISLES CONSISTS OF SIX ISLANDS: FUGLOY, SVÍNOY, VIÐOY, BORÐOY, KUNOY AND KALSOY, WHICH MAKES UP THE NORTH EASTERN CORNER OF THE FAROE ISLANDS

These six islands are very different and each has its own distinctive character. Together they make up a unit around the main town of Klaksvík. Here you will find a dramatic countryside, idyllic villages and a people who live in close connection with the beautiful, yet wild ocean. The breath-taking

scenery is captivating.
Dramatic high moun-

tains with steep falls to
the sea and scattered

small villages. The Northern Isles have a lot to offer to visitors. We have history, culture, nature, as well as dynamic trades and industries.

There are many options on what one can do in a day in the Northern Islands, but we couldn't possibly fit them all on here. To start you off, here are two options:

KLAKSVÍK IN A DAY

KLAKKUR

Hike the 414 m high mountain Klakkur where the path is easy to find and friendly to walk on - this is also one of the few places skiers go in the winter. Before you start the hike up Klakkur, you can either walk or drive up Hálstur on the gravel ground named Ástarbreytin (The path of love). In the valley just south of Hálstur is a place that used to be named "Á Vaktini" (on guard), which is a place legend says people used to keep watch over hostile incoming ships. On your way up, you will get a panorama view of Klaksvík, and once you reach the top you get an amazing view of Leirvík and if the weather allows the southern island of Nólsoy. Make your way down from the hike and stop by a local café to enjoy your lunch. Føroyar Bjór is a local brewery in Klaksvík, a great occasion to try some local beer.

CHRISTIANSKIRKJAN

After lunch, visit one of the most beautiful churches in the Faroes. One of the few places in the Faroes to find religiously stained windows, you will find beautiful art in the sanctuary as well as in the basement.

ÚTI Í GRØV

This beautiful park is only minutes from Klaksvík. A peaceful place with flowers, bushes, trees, streams coming down the valley, if you happen to be out when the sun shines from the west, the park becomes cosy warm where you can even take a nap! At the park you are also able to see remains of a house from Viking time as well as the first outdoor swimming pool of the island, which was built in 1902.

NORÐOYA FORNMINNISAVN

The local historical museum, which houses in the old merchant house in Klaksvík and was built in 1838 as a branch to the Danish monopoly trade.

GAMLA SEGLHÚSIÐ

Art exhibition with different, well-known Faroese artists.
