EXCURSIONS IN NORÐOYGGJAR

GUIDED TOURS

The tourist information in Klaksvík arranges several guided walking tours. Arranged in cooperation with the guide, they are a must experience for both mind and soul. There are easy tours and more difficult ones for the experienced hiker.

KALSOY: Every day, in all kinds of weather, the car-ferry Sam sails faithfully between Klaksvík and Kalsoy. Take a trip to Kalsoy! It is one of the most distinct islands in the Faroes with its long, narrow shape and myriad of tunnels that link the four delightful villages on the island's east coast. The four villages on Kalsoy are Syðradalur, Húsar, Mikladalur and Trøllanes. The ferry calls at Syðradalur, and if you would like to go ashore, a bus can take you through five tunnels all the

way to the village of Trøllanes. It is worth to make a stop in Mikladalur to see the astonishing statue of the seal woman by the shore. In Trøllanes you can enjoy the fertile green valley and visit the old smithy – an economusée where you can experience traditional craftsmanship. Kalsoy is a place where culture and nature merge. It is easily accessed and always worth a visit. Visit Norðoy arranges several different trips to Kalsoy.

KLAKSVÍK: A guided walk around the town, where we visit the Christianskirkjan, the local art gallery and the local historic museum.

KLAKSVÍK: A guided hike to the top of mount Klakkur. A 414 m high mountain top with a spectacular view of the Northern Islands and Eysturoy.

OUTER ISLANDS, FUGLOY AND SVÍNOY: Each day, the passenger ferry, Ritan, sails to the two most outer islands in the northern region, Svínoy and Fugloy. The islands are rich with birdlife and easier hiking. For those who do not have time to visit the islands, it is also possible to stay on the ferry for the duration of the trip.

BOAT TRIPS WITH DRAGIN
The trips take you to the magnificent bird cliffs in the northern part of the Faroe Islands. On-board you can enjoy the sound of the ocean and singing birds while the salty water tickles your nose.

It is also possible to order tailor-made trips designed according to your wishes. Dragin also offers company and group trips. If you bring your own deep-sea fishing gear, we can arrange stay-aboard fishing trips. The ship has 8 berths, two toilets and a shower on-board. The galley has all necessary modern facilities for cooking. The navigation system is new and the best available. The ship has an ISM security system and is approved by the Faroese Government Inspection of Ships. Contact the tourist information in Klaksvík
