

Supply Base Operation

In an exciting period for the Faroe Islands, Faroe Ship has been contracted by the first offshore oil exploration licence holders to provide logistics and supply chain management services.

Faroe Ship have had a presence in Runavik for more than 30 years and are proud to be involved from

the outset in meeting the challenges of this new development for the islands. The port authority in Runavik have built a new harbour to meet increases in offshore activity.

Amongst our contracted responsibilities are: Loading and unloading of supply vessels, Terminal work, Material co-ordination, Cargo handling – reception and distribution, Administration of indoor and outdoor storage areas with inventory control, Provision of various equipment and merchandise.

A new era for the Faroe Islands.
