WE SEARCH DEEP AND AIM HIGH IN SEARCH OF ENERGY

We are experiencing rapid growth in the company's many activities. We are one of the leading energy groups in the Nordic region and an integrated company with activities along the entire value chain.

We have an expanding portfolio of 70 natural gas and oil exploration and production licenses. They are strategically located in the Danish, Norwegian and UK sectors of the North West European Continental Shelf as well as in the waters around the Faroe Islands. Our long-term natural gas portfolio is expanding and our investments reflect the ambition of growth.

Ormen Lange

A major asset is the 10.342 per cent ownership of the giant Ormen Lange natural gas

field in the Norwegian sector. It is connected to the UK via the 1,200 km subsea pipeline, Langede which is part of the Gassled system.

Skills and knowledge

As an operator of 20 licenses – of which three are currently producing – we have significant in-house experience, skills and industry knowledge within the exploration and production of natural gas and oil.

We will continue to strengthen our E&P-business in the coming years through recruitment of highly qualified professionals to meet the needs of our expanding business. We have E&P-offices in Denmark, Norway as well as in the UK and the Faroe Islands.

DONG Energy is one of Northern Europe's leading energy groups. We are headquartered in Denmark. Our business is based on procuring, producing, distributing, trading and selling energy and related products in Northern Europe. The company delivered revenue of DKK 41.6 billion in 2007 (approx. EUR 5.6 billion or USD 8.3 billion). DONG Energy has more than 5,000 employees. For further information, see www.dongenergy.com.
