

Green Gate - your gate to the Faroe Islands

Green Gate Incoming Ltd was established only 7 years ago, in 2001. The company was founded with the sole purpose to do incoming operations on and to the Faroe Islands. The founders of the company have all been working within the industry of tourism for several years and have thus achieved vital experience and competence in running the business successfully.

The managing director of Green Gate Incoming, Mr. Marni Hjalnafooss, states that the mission is that all of their guests should leave the country with the feeling of true satisfaction and with experience of a life time.

The company offers many different experiences during a stay in the Faroe Islands, both

for groups and also for individual travellers. In addition to that, if it happens that you are travelling on your own, with your family or friends or would like to extend your business trip, Green Gate Incoming is always ready to arrange your excursions in order to get the most out of your experience in the Faroe Islands, says Mr. Marni Hjalnafooss.

Green Gate is able to arrange for different excursions, such as boat trips, which have become increasingly popular in the last few years, and also other experiences, such as private home trips, where the tourist has the opportunity to get to know the Faroese culture by living with the local people. Finally, the organisation is able to arrange for business trips, which is also

an increasing demand, as you can combine business with pleasure, by a stunning and unexplored nature in a country, which my National Geographic Traveller was chosen as the nicest islands in the world, as they see these islands as 'authentic' and 'unspoiled'.

Overall, the Faroe Islands with a good infrastructure, several international flights every day and unspoiled environment, is a 'must' for travellers that like to experience something unique and the employees at Green Gate are specialists and know how to take good care of you.
